Company history/background

The company that owns the spring is for sale, a well-known brand and goodwill.

Company located in a natural and protected area.

Annual production of 300 million liters.

Their staff consists of approximately 20 people.

Unique selling points

It directly handles the collection, purification, packaging, and distribution to its own customers and large supermarkets.

It also packages for other brands.

Other

The entire company, currently operating, is being sold by a corporation.

With the current problem of water scarcity, it is an excellent future investment for distribution companies or investors looking for a safe value.
