**Company history/background**

For sale: a financially sound company specializing in the design, assembly, and maintenance of livestock and industrial facilities. A family-owned business founded in 1985, it boasts its own workshop, warehouse, and office facilities, totaling 1,075 square meters. These facilities are located in the Villalonquéjar industrial park (Burgos), a prime commercial location. The well-maintained premises include four modern, individual offices, state-of-the-art electrical and general lighting systems, a 4-ton overhead crane, a diesel-powered forklift with driver, two vans, tools, basic workshop equipment, and thermally and acoustically insulated partitions, among other features. A substantial and up-to-date stock of spare parts is also included. The company manages a portfolio of

approximately 1,200 active clients nationwide. The business is free of debt and any outstanding employment obligations. It received an award from the Regional Government of Castile and León in 1991 for Technological Development and Industrial Design.
