Company history/background

For sale: modern IT consulting firm with advanced custom developments for companies and organizations, specializing in digital transformation for large and medium-sized companies as well as for universities, hospitals and medical research centers.

Sociedad SL with a significant client portfolio, more than 50 references, both private companies and public

entities, including important hospitals and universities at the national level.

They offer their own applications, with registered trademarks and developed using the latest technological standards, and licensed on a pay-per-use basis. These include Workforce Management Software, Medical Research Software, and Emergency and Rescue Software.

Revenue has been steadily increasing over the last three years, with significant profit margins. This presents an opportunity to purchase the limited liability company (SL) or to acquire the entire business, including its substantial client base and no outstanding debts.
