SALE of a company manufacturing and installing bathtubs and shower trays (C-7417) domiciled in the Balearic Islands.

This company specializes in the manufacture and installation of custom-made bathtubs, precisely fitted to existing, deteriorated tubs for a perfect fit. Their bathtubs are made of acrylic with ABS insulation, providing strong chemical resistance to heat (temperatures exceeding 100°C) and excellent impact resistance thanks to the ABS support board.

ISO 9001:2008 - No.: 9002806 Custom Bathtubs

The bathtubs are quickly adaptable to existing ones, with both becoming a single unit. This definitively solves any problems found in deteriorated installations.

They have over twenty years of experience that makes them manufacturers and installers in the hotel sector internationally; we also offer our service in family homes only in Mallorca.

They also manufacture and install shower trays ranging from 120 cm x 75 cm to 170 cm x 75 cm. They fully comply with current European Committee for Standardization (CEN) regulations and have been approved for certification by the General Directorate of Health.

They have a warehouse available for rent, approximately 300 square meters in size. The monthly rent is approximately 1,400 euros.

Fully equipped. Extensive client base.

Growing sector.

RRP: €395,000
