Company history/background

Bodywork, sheet metal, paint, mechanical and electrical workshop for sale in the south of Madrid.

A well-structured company with a sales and technical department that serves a profitable niche market by offering vehicle bodywork customization. The workshop also has agreements with insurance companies for repairing damage and breakdowns.

The company is financially sound and has a demonstrable historical turnover of around €500,000 and pre-tax profits of 15%-20%.

The company is being sold fully operational with machinery, qualified personnel, contracts and license for €445,000 negotiable and is an opportunity for the professional who wants to start a successful business or the company in the sector that wants to expand.

Unique selling points

This company has a defined and profitable business strategy and market niche.

There is room to expand the customer base within the same premises or through expansion and synergy.

Other

This company is an opportunity for the entrepreneur/professional in the sector who wants to set up a safe business, by resuming an already profitable and structured activity.

It is also a company of great interest to be acquired by another workshop in Madrid.
