Confidential

**Company history/background**

Nursery school for sale in Toledo. Operating since 2004, it currently has a capacity for 74 children, with the possibility of expanding to 114 places by adding two more classrooms (ready to open when needed). It is officially recognized by the Regional Ministry of Education and has agreements with Sodexo, Edenred, and Cheque Dejeneur. Located in the fastest-growing and most populated neighborhood, it's ideal for starting your own business and generating income from the first month. Currently, there are children enrolled for the next

school year. The premises are 550 square meters. The sale is due to the owner's inability to manage the business. Support and guidance will be offered if needed, both until the end of the current school year and into the beginning of the next.

Childcare center for children aged 0-3 years
