**Company history/background**

We are a company with over 20 years of experience dedicated to vocational training for employment and the development of young people. Our center, located on one of the main streets of a town with over 45,000 inhabitants, holds more than 30 accreditations for providing training subsidized by the Valencian Government (GVA).

We have extensive experience in organizing and managing training programs for employed and unemployed individuals. The center boasts 450 m<sup>2</sup> of facilities, including four spacious, divisible classrooms and common areas. The property where the training takes place can be either leased or purchased.

The training programs offered by our company are as follows: Subsidized training for employed and unemployed individuals. Training for youth employment. Vocational training modules. Skills training. Funded training through FUNDAE for companies.

### Other

We are looking for a training company seeking to establish itself in the Medio Vinalopó region, with a catchment area of over 150,000 inhabitants. However, given the characteristics of the facilities, the company could also be of interest to investors from other sectors who could develop their own activities at the center and complement them with those of the company being sold.
