Company history/background

In the dynamic world of technology, our company has demonstrated meteoric growth in just two years of operation. What began as a solo venture has evolved into a leader in custom software development and the implementation of Odoo ERP solutions. With two registered trademarks, our story is one of consistent success. During these two years, we have doubled our revenue and evolved to offer not only exceptional services but also become a key player in the sale of computer equipment.

Our primary focus is developing custom software tailored to our clients' specific needs. We are also an Odoo partner and an Ionos Premium partner, underscoring our expertise in ERP solutions and web hosting services. Beyond services, we also supply high-quality IT equipment and hardware. Furthermore, our accreditation as a Digitalization Agent for European funds places us in a privileged position within the technology and financing sectors.

Other

This is a unique opportunity for an investor or company looking to enter the lucrative world of technology. The ideal buyer would be a technology company seeking to expand its presence in the Spanish and European markets. It would also be attractive to investors looking for a growing technology business with a proven track record. Buyers should be interested in custom software development, ERP solutions, and the computer hardware market. Investing in our company offers guaranteed growth and a secure entry into the ever-expanding digital economy.
