Company history/background

Laundry in the North of Madrid, with easy payment options and operating well.

For sale due to the owner's professional advancement to a management position within the company where he works, which prevents him from dedicating time to supervising the business.

Located on a commercial and residential street in the northern area of Madrid

It is ideal as a self-employment business, providing work for 3 people.

The asking price is €94,000. Very reasonable. Monthly revenue is €11,000, rent is €1,200, and I employ 3 people. If you run it as a family business, calculate your income as 3 salaries plus profit margin.

We even have a variable financing plan planned for 4 years, subject to some conditions, which you can consult.

It is a well-run business and for any information we require a signed confidentiality agreement.

We do the work of a laundry service, which is to attend to and wash the clothes:

1. That which brings the customer to the store.

2 We collect and deliver to your home through a very profitable subscription service.

3 Service aimed at professionals and businesses in the area, restaurants, hairdressers, schools, medical offices and similar, gyms.

Unique selling points

Good location.

Area where the service is needed by both individuals and businesses. Sales of €11,000/month

Low rent, businesses like this operate this way because we pay for the renovation of the premises

A policy of controlled but profitable pricing.

It is perfect as self-employment and in this, and perhaps the most important possibility of financing the transfer.

Other

It's ideal as a self-employment business because the biggest cost is personnel, and if you manage it only with your family, you earn 3 salaries, plus you add the profit margin of the business itself.

You can also manage it as a middle ground with 1-2 employees and self-employment. Even just with employees and your supervision. But then your profit will be much lower.
