Company history/background

We have mandates from investors and entrepreneurs interested in investing in and buying SMEs in the IT and telecommunications services sector.

Our clients are a diverse group of national entrepreneurs and investors interested in buying or investing in small and medium-sized enterprises in Catalonia and throughout the country.

Service companies of all types will be valued, provided they have their own software in operation, or SAS services or technologies, and/or large and demonstrable client portfolios.

Seriousness and confidentiality fully guaranteed.

KEY POINTS: All types of company financial situations, management problems, succession or financial issues will be considered, provided that a suitable future viability plan can be established.

PURCHASE CONDITIONS: Investment in a percentage of the share capital, (shares or stock), or purchase of 100% of the company, or transfer/assignment of software or customer portfolio.

AREA OF INTEREST: Priority Barcelona, Girona, Lleida, Tarragona, although investments throughout Spain may be considered if the company proves interesting.
